

- Outstanding all round performance
- Excellent physical and electrical performance
- Good chemical and solvent resistance
- Flexible

RNF-3000

A premium grade heat-shrinkable tubing made with a 3:1 shrink ratio to cover a wide range of substrates easily with a small range of sizes to keep inventory costs low.

RNF-3000 premium grade 3:1 shrink ratio polyolefin based heat-shrinkable tubing offers an outstanding overall balance of properties. The product has a wide range of both military and industrial approvals.

RNF-3000 tubing possesses a unique blend of physical, chemical and electrical properties and is suitable for a wide range of applications. The 3:1 shrink ratio allows for installation onto a wide range of substrate sizes with a small number of tubing sizes so inventory costs can be

kept low. Used extensively in military applications for lightweight harness jackets, insulation, colour coding, identification, protection against fluids and provides mechanical strength.

Temperature rating

Operating temperature range:	-55°C to +135°C
Minimum shrink temperature:	+80°C
Minimum full recovery temperature:	+120°C
